

## Goldboerse presents the most advanced solution for trading physical precious metal

### Buying and Selling:

The market is supported by organisations (liquidity providers and market makers) who supply allocated physical bullion for storage and delivery around the world. This exchange-style architecture, consisting of multiple buyers and sellers, means that our clients have access to lower premiums and tighter spreads than would otherwise be available through the typical bullion dealer model.

### Allocated Precious Metal Holdings:

Legal title remains with the client at all times, with the bullion being stored on the client's behalf. This is considered to be one of the most transparent and safest forms of bullion investment.

### Storage and Security:

Storage and transportation: Malca-Amit (Global) and Armaguard (Australia)  
Inspection, verification and audit: BDO and Inspectorate.

### Fund Segregation:

All client trading funds are held in segregated, regulated trust accounts with Australian authorised deposit-taking institutions. The client trust accounts are administered and audited according to the regulations imposed under Australian law.

### Vault & Delivery Locations

### Trade Locally or Globally:

Clients can trade USD-denominated precious metal in our Sydney, Singapore, Hong Kong, Bangkok, Shanghai, London, Zurich and New York Trading Hubs.

# METALDESK 2

The custom-built trading platform, MetalDesk™, has been specifically designed to make physical bullion trading simple, secure and efficient.

Trade physical gold and silver *anywhere* with MetalDesk.

## FEATURES

**Online Trading Platform:** MetalDesk allows you to monitor live market prices and enables instant order execution and trade settlement.

**Full market depth:** shows all the price levels available in the market for each precious metal product traded, giving an indication of total market demand and supply.

**Customisable watchlist:** organise and focus your precious metal trading by creating watchlists to keep a close eye on the products that you are most interested in.

**Comprehensive trade management tools:** through MetalDesk you are able to manage and view your cash and bullion holdings, access a full range of financial and trade reports, and obtain personalised support for any question that you may have.

**Holdings management:** allows you to monitor and manage your bullion inventory.

**Full account activity reporting:** 24 hour access to live and historic account activity.
